Masks and RAT Tests

Masks

There has been a lot of commentary this week about the fact that the Victorian Government have decided not to mandate masks again in Schools despite the Victorian Chief Health Officer recommending this. I believe that we should be strongly encouraging all staff and students to wear masks whilst indoors as this is clearly the medical advice and the number of COVID cases is increasing.

RAT Tests

We will provide these RATs to parents/carers, staff, or students on request, from each of the respective Campus Offices. The previous settings that required weekly testing of students and staff have ceased. A reminder if you have COVID symptoms you must complete a RAT test or if you have been identified as a household contact you must wear a mask and complete a RAT test every day prior to coming to school.

Thank you
