"These workshops made me look at
the world differently." – Matthew

"Now I go deeper into the
question." – Leila

"It helped me argue my point of
view." – Chongjie

"It made me more confident
speaking to a group." – Lichun

Ever wanted to talk about real stuff –
fairness, social media, truth, the
environment – without getting shut
down, laughed at, or dragged into an
argument? At Connect+Explore, you can
express yourself and discover big ideas.

This is a small-group space where you
can say what you actually think, ask
questions without judgment, and hear
how other people see things ... guided
by a friendly, experienced facilitator
who keeps things lively and interesting.

Not a debate club. Just good conversations about things that actually matter.

Spots are limited... book yours before they're gone!
