

Penola Catholic College is a school which operates with the consent of the Catholic Archbishop of Melbourne and is owned, operated, and governed by Melbourne Archdiocese Catholic Schools Ltd (MACS).

Curriculum and Learning Policy

Vision

Mission

Penola Catholic College is committed to providing educational opportunities that actively welcome, engage, inspire, and challenge all students to learn in a safe and enlivening Catholic environment.

We provide students with real life learning opportunities and experiences that will prepare them for the “business of living”.

Purpose

Penola Catholic College is a community of students, parents and staff guided by the teachings of Jesus Christ and inspired by the example of Saint Mary of the Cross MacKillop. Enlightened by the Gospel values of Faith, Love, Hope and Compassion, we strive to provide a holistic education which meets the needs and develops the gifts of each student. As a community we recognise that this is best achieved in a welcoming environment with a commitment to justice, service, and collaboration.

Accredited Curriculum Overview

Foundation to Year 10

The Victorian Curriculum F–10 is the Foundation to Year 10 curriculum for Victorian government and Catholic schools. The Victorian Curriculum reflects Victorian priorities and standards for F–10 and defines what it is that all students have the opportunity to learn as a result of their schooling, set out as a series of learning progressions.

The Victorian Curriculum F–10 can be found here:

<http://www.vcaa.vic.edu.au/pages/foundation10/f10index.aspx>

The Victorian Curriculum F–10 recognises that increasingly, in a world where knowledge itself is constantly growing and evolving, students need to develop discrete discipline knowledge and understanding, in addition to a set of skills, behaviours and dispositions. These general capabilities apply across discipline content and equip students to be lifelong learners able to operate with confidence in a complex, information-rich, globalised world.

Senior secondary – Years 11 and 12

MACS schools delivering senior secondary courses to students are required to follow the requirements and regulations set out by the Victorian Curriculum and Assessment Authority (VCAA). This applies to the Victorian Certificate of Education (VCE), the Victorian Certificate of Applied Learning (VCAL) and Vocational Education and Training (VET). Any MACS school offering other accredited curriculum frameworks approved for delivery in schools by MACS, such as the International Baccalaureate (IB), is required to follow the regulations set out by the governing curriculum authority.

The Penola Catholic College Curriculum Plan has been developed in light of the directions for Catholic education, the Religious Education Curriculum Framework, the Victorian Curriculum F–10 and/or senior secondary curriculum and principles of curriculum from the *Horizons of Hope* education framework. This curriculum plan ensures excellent holistic education, centered on the students and engaging them in authentic, purposeful learning.

Scope

Our school curriculum defines what it is that all students have the opportunity to learn as a result of their schooling at Penola Catholic College.

At Penola Catholic College, the curriculum is enriched by the values, beliefs, perspectives, and experiences of each member of the learning community when they engage actively with Catholic understandings of the human person. This orientation towards the person means that the process of curriculum design is shared with students, creating within them a sense of ownership and self-efficacy as learners. Our learning community fosters the conditions for students to have a voice in the curriculum design process, allowing them to contribute to decisions about what they need to know and when.

Curriculum Content

Penola Catholic College will take inspiration from the *Horizons of Hope* education framework. This framework supports MACS school communities to engage in dialogue about the distinctive nature of learning and teaching, leading learning, and enhancing Catholic identity in our schools. The framework is a living document that has been added to over the years with examples of practice from schools, as well as additional strategy statements in the areas of Religious Education, Leadership, Wellbeing and Diversity.

Religious Education has a central place in the teaching and learning program at Penola Catholic College as it reflects our unique character of Catholic identity and focus as a MACS school. The primary source

for developing our religious education program is the MACS Religious Education Curriculum Framework.

The school implements the Victorian Curriculum F–10 in order to provide students with a comprehensive teaching and learning program across the year levels with age-appropriate content, sequential learning patterns and interrelated aspects of the content and skills of the desired learning capabilities. Refer to the *Horizons of Hope Foundation Statement – Pedagogy in a Catholic School*. The Victorian Curriculum can be found here: [Victorian Curriculum F–10](#).

All content is developed using the following documents:

- Penola Catholic College Religious Education Scope and Sequence: Religious Education Curriculum Framework Document
- Penola Catholic College school policies for each of the learning areas
- Victorian Curriculum F–10
- Statement of Philosophy.

The school’s teaching and learning program is the school-based plan for delivering this common set of knowledge and skills in ways that best use local resources, expertise, and contexts. Information technology is an integral part of our curriculum as a basic tool for learning. Supported by MACS, Penola Catholic College will develop strong processes for monitoring student progress and the application of appropriate explicit teaching and intervention strategies.

Whole-school Curriculum Plan and Time Allocation

Curriculum overview – Year 7 to Year 10

The following provides an outline of the learning areas within the F–10 curriculum. Recommended weekly time allocations are listed as a guide. School curriculum plans may concentrate the teaching of particular learning areas within semester units or electives (as in the case for Years 7–10). The recommended weekly time allocations are in line with recommendations of the educational authorities and are averages of curriculum implementation which may span across the two-year cycle. Furthermore, multiple learning areas are often part of an integrated unit and not always taught as separate subject areas.

Capabilities

The Victorian Curriculum F–10 includes both knowledge and skills. It is expected that the knowledge and skills defined in the Capabilities will be developed, practiced, deployed, and demonstrated by students in and through their learning across the curriculum.

The four capabilities of the Victorian Curriculum F–10 are:

- Critical and Creative Thinking
- Ethical
- Intercultural
- Personal and Social.

Curriculum Overview – Senior Secondary

Victorian Certificate of Education (VCE)

The VCE is a senior secondary certificate of education recognised within the Australian Qualifications Framework (AQF). It is designed to be completed over a minimum of two years and includes general education curriculum components (VCE studies) and programs from VET qualifications. The minimum requirement for satisfactory completion of the VCE is the satisfactory completion of 16 units which must include:

- three units from the English group, including a Unit 3–4 sequence

- at least three other sequences of Unit 3–4 studies, which can include further sequences from the English group.

Victorian Certificate of Applied Learning (VCAL)

The VCAL is a senior secondary certificate of education recognised within the Australian Qualifications Framework (AQF). The VCAL can include components of accredited Vocational Education and Training (VET) including Further Education (FE) qualifications from within the AQF, and VCE studies. The VCAL is accredited and issued at three award levels. VET training is a compulsory requirement for completion of VCAL certificates at intermediate and senior level. To be awarded any VCAL qualification, students must successfully complete a learning program that contains a minimum of 10 credits and includes:

- curriculum components that can be justified against the purpose statement for the Literacy and Numeracy Skills Strand: one credit is required for Literacy Skills and one credit is required for Numeracy Skills
- curriculum components to the value of at least one credit that can be justified against the purpose statement for each of the Work-Related Skills Strand, Personal Development Skills Strand and Industry Specific Skills Strand
- a minimum of two VCAL units, one of which must be a VCAL Personal Development Skills unit at level
- curriculum components to the value of six credits at the level of the VCAL award or above – one of which must be for Literacy Skills.

Vocational Education and Training (VET)

Recognition of VET, including Further Education (FE) within the VCE and VCAL, ensures that students who complete all or part of a nationally recognised VET (including FE) qualification may receive credit towards satisfactory completion of the VCE or VCAL. Students would typically undertake training at Certificate II or III level. MACS schools are required to have appropriate courses, assessment, reporting and administrative processes in place to ensure students undertaking a VCE or VCAL program, and/or VET courses, have access to the necessary teaching and learning programs. The *VCAA VCE and VCAL Administrative Handbook* and the specific VCE study designs and/or VCAL curriculum guides and/or VET modules set out these requirements for all schools.

Implementation

The curriculum is designed and delivered from whole school to year level planning to individual teacher plans. These are created in a collaborative and supported environment. This ensures that a guaranteed and viable curriculum is driving student learning and lifting student outcomes.

A variety of other resources, including online resources, are available to support planning.

Penola Catholic College will implement the curriculum plan by undertaking the following:

At Penola Catholic College, learning and teaching are at the core of our mission. Through a relevant and engaging curriculum, we aim to prepare our students for the future. In an ever changing, technologically sophisticated world, we foster the ability to be critically aware and sensitive to local and global issues. In other words, we provide 'Real Life Learning'.

We aim to provide a safe learning environment that prioritises differentiation to ensure the needs of all students are met and are appropriate to their stage of learning. Our educational programs are student-centered and aim to foster a growth mindset, empowering students to take safe risks and become independent learners who strive for excellence.

We endeavor to create learning spaces and facilities which utilise the latest technologies to enhance the learning environment and educational opportunities for our students.

Penola Catholic College continues to strive for academic excellence through a range of opportunities and Key Learning Areas. Our Learning Management System - MyPenola ensures that all educational resources and ICT systems are integrated through one portal for the whole community - parents, students, and staff. Teachers upload well-structured, relevant, and current curriculum and multi-model resources for each subject, allowing 24/7 access to students, parents and staff.

Targeted intervention programs are offered for those with special learning needs.

The College continues to develop platforms for student achievement. A focus on literacy has impacted positively on student literacy outcomes and the development of a differentiated approach to teaching has made learning more accessible to students.

A key focus for Penola Catholic College is on improving teacher professional practice and knowledge. This includes offering a range of professional learning resources and workshops, a whole school Coaching Program and a Research Lead. Growth Coaching has been found to be a highly effective way of supporting individuals and teams to develop a leadership style that is developmental, interpersonal and customised. Leaders who can use coaching skills can improve performance and support change.

Staff prioritise the use of research in planning, decision making, professional learning and in learning and teaching. High-quality research informs planning and practice to improve our practice. We also support teachers and College leaders to more accurately target and address data and the learning needs of all students. This supports our aim to create a personalised learning experience for all students.

Staff regularly work in Key Learning Area or Curriculum Planning Teams, through online platforms and meetings to develop curriculum plans (school and year level). They also plan individually, design lessons and units of work.

Evaluation

This policy will be monitored and reviewed by the staff, in accordance with the School Improvement Plan or as required.
